Quality Marine Products Since 1918

Groco IBVF BSPP Flange Adaptor

- Patented IBVF Flanged Adaptors have been developed to address several common problems in the marine industry. Here's what they do:
- British Standard Pipe Parallel (BSPP) Thread
- Eliminate dangerous thread miss-match when in-line valves are screwed onto thru hulls.
- Accept standard thru-hulls into the base and standard in-line valves on top.
- Provide a safe and sturdy assembly when in-line valves are used as seacocks.
- For OEMs, prevent valve damage during engine or generator installation - the valve can be installed later.
- Simplifies future valve replacement.
- C83600 Bronze

Groco BB-1 Seacock Backing Block

- Each size fits multiple seacock sizes.
- Press threaded brass inserts into the hull side of the backing block into the holes that match the seacock flange.
- Rigid 1/2" thickness provides secure installation but is flexible enough to conform to minor hull curvature.
- Will not swell or absorb moisture.
- Made from an environmentally friendly PVC foam specially formulated for marine applications.

Groco PNC Series Bronze In-Line Check Valve - Male NPT

Cast bronze pipe nipple with check valve inside to prevent backflow in plumbing systems.

Imposes almost zero flow restriction.

Requires less than 045 PSI to open.

Colored bands indicate flow direction (green to red).

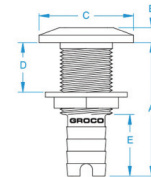

Do not use in diesel fuel or gasoline applications.

Groco SC Series Bronze Hull Strainers

Access to the thru-hull fitting and seacock inlet beneath Groco SC series hull strainers is simplified by the exclusive Mount Ring design. The Mount Ring is permanently attached to the hull - the strainer attaches to the ring. When access needed, just unscrew the strainer from the mount ring with no risk of damage to the hull. C83600 bronze body and ring. Cast filter slots.

GROCO RAW WATER STRAINER PARTS

Groco BVS Series Bronze Seacock / Raw Water Strainer Combination

Square hole in handle accepts standard ratchet.
Space saving design with strainer and integral seacock.
Just one component to install and just one bilge location to access for winterization and maintenance.
So inside tie rods.
CB4400 bronze construction.
Full flow ball valve with stainless steel ball and stem.
Strainer has screw on/off cap...304 stainless steel filter basket.

Groco Series WSB Pump Inlet Strainer with Bracket

Protects pumps from debris common in marine applications. For use above waterline, on suction side of pump.
Features:
Stainless steel filter basket.
White nylon strainer body; clear sight glass.
Sight glass unscrews for screen cleaning.
Inlet and outlet threaded for NPT female pipe threads.

Trac Ecological FLUSHcap® for Groco ARG Strainers

make flushing your raw water cooled equipment a snap! Temporarily replacing your existing strainer cap with a FLUSHcap will allow you to easily connect a Port-O-Flush Jr.® or garden hose to your system. Use TRAC's FLUSHcaps to flush your raw water cooled equipment with Barnacle Buster®, fresh water, or to aid in winterizing your system.

Raritan Raw Water Strainer

Helps protect engine cooling systems, air conditioners and marine heads from debris found in most waters. This strainer is made of a high strength clear plastic with a removable fine mesh filter basket, allowing it to be easily checked for clogging. It can be mounted using its own built-in bracket. Both inlet and outlet accept standard 1-1/2" NPT adapters. Plastic fittings are required for all installations.

PERKO INTAKE WATER STRAINERS & PARTS

PERKO®
Made in the USA

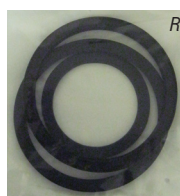

493

500

Perko Series 493 & 500 Water Intake Strainer

Designed for easy installation and cleaning. It features a 304 stainless steel strainer basket to minimize electrolysis. A drain plug in the bottom casting is provided for easily removing sediment or for winterizing. Series 500 is recommended for applications that require higher capacity.
